BH BERBI HARVEST

Crafted in Britain. Inspired by Nature. Designed to Become Part of Your Story.

Long before a Berbi Harvest table enters a home, a hotel, or a boardroom, its story has already begun. Some of the timber we work with has spent decades—and in rare cases, centuries—growing in forests, shaped by changing seasons, storms, rivers, and time itself. Every grain, knot, live edge and burl has been formed by nature, creating patterns that can never be repeated.

Every piece begins with the careful selection of exceptional hardwoods, responsibly sourced and chosen not only for their strength but for their individuality. We look for character rather than perfection, because it is nature's imperfections that make every table truly unique.

In our workshop, skilled craftsmen transform these remarkable timbers into one-of-a-kind pieces of furniture using traditional techniques, meticulous attention to detail, and an uncompromising commitment to quality.

Furniture designed to become the heart of a home, the centrepiece of a dining room, the focal point of a luxury interior, or the table around which families, friends and colleagues will gather for generations. Each Berbi Harvest table carries its own identity.

Our Commitment:

- Handcrafted in Britain by skilled craftsmen
- Responsibly sourced sustainable hardwoods
- Carefully selected one-of-a-kind timber
- Exceptional attention to every detail
- Built to be admired today and treasured for generations

A place where stories begin, memories are made, and generations gather around something that can never be replicated.

RIVER ECLIPSE

POPLAR BURL
EPOXY TABLE

Price: Upon Enquiry

Description:

A truly outstanding handcrafted table that combines the exceptional beauty of Poplar Burl with a striking epoxy resin river design. The highly figured burl grain, natural textures, and organic patterns create a unique visual masterpiece, while the resin feature adds depth and contemporary elegance. Finished with a premium natural oil treatment, the surface enhances the timber's rich character and provides lasting protection.
